Field	Value
Group Provisioning Needed	No

Deprovisioning Behavior

Field	Value
When user is unassigned	Disable account (SCIM PATCH active=false)
When user is deleted	Hard delete (SCIM DELETE)

Notes

Flask SCIM 2.0 + SAML SP on port 5010. End-to-end SSO: receives and parses real SAML assertions.

SCIM via Entra provisioning agent. No public URL required. Data in contoso.db, dashboard at /dashboard.

No group provisioning. Only JML user lifecycle events in scope.
